Natural Science Vocabulary

Unit 2: Animals & Their Characteristics

3.º de Primaria

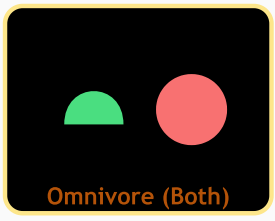

1. Vital Functions & Nutrition (Funciones Vitales)

Herbivores
Eat plants

Carnivores
Eat meat

Omnivores
Plants & meat

Breathing
Gills / Lungs

Word (Inglés)	Meaning in English	Español
Vital functions	Actions living things do to survive	Funciones vitales
Nutrition	Getting energy from food	Nutrición
Interaction	Reacting to the world using senses	Interacción / Relación
Reproduction	Having baby animals	Reproducción
Eat food	Taking in food to get energy	Comer alimento
Energy	What animals need to move and live	Energía
Eliminate waste	Getting rid of body waste	Eliminar desechos
Herbivores	Animals that eat plants	Herbívoros
Carnivores	Animals that eat meat	Carnívoros
Omnivores	Animals that eat plants and meat	Omnívoros
Oxygen	Gas in air or water needed to live	Oxígeno
Breathing	Taking air into the body	Respiración
Gills	Parts underwater animals use to breathe	Branquias / Agallas
Lungs	Parts inside the body used to breathe air	Pulmones
Skin	Outer layer covering the body	Piel

2. Senses & Reproduction (Relación y Reproducción)

Word (Inglés)	Meaning in English	Español
Senses	Sight, hearing, smell, taste, touch	Sentidos
Nervous system	Brain and nerves that prepare a response	Sistema nervioso
Locomotor system	Bones and muscles that help move	Aparato locomotor
Offspring	Baby animals	Crías
Oviparous	Born from eggs	Ovíparos
Viviparous	Born alive from the mother	Vivíparos

3. Vertebrate Animals (Vertebrados)

Backbone
Columna vertebral

Limbs
Alas, patas, aletas

Exoskeleton
Caparazón duro

Tentacles
Tentáculos

Word (Inglés)	Meaning in English	Español
Internal skeleton	Bone structure inside the body	Esqueleto interno
Backbone	Line of bones down the back	Columna vertebral
Skeleton	Structure of bones in the body	Esqueleto
Head	Front part with eyes, ears, and brain	Cabeza
Trunk	Main body containing heart and lungs	Tronco
Limbs	Arms, legs, wings, or fins	Extremidades
Legs / Arms	Limbs used for walking or holding things	Patas / Brazos
Wings / Fins	Limbs used for flying or swimming	Alas / Aletas
Tail	Part at the back end of the animal	Cola / Rabo
Organs / Sense organs	Heart, lungs, eyes, ears, nose	Órganos / Sentidos

4. Invertebrate Animals (Invertebrados)

Word (Inglés)	Meaning in English	Español
Invertebrates	Animals with no backbone	Invertebrados
No internal skeleton	They don't have bones inside	Sin esqueleto interno
Shells / Spines	Hard outer covers or sharp points	Conchas / Púas
Aquatic	Living in water	Acuático/a
Pores / Filter water	Tiny holes to trap food from water	Poros / Filtrar agua
Fixed to the sea floor	Attached to rocks at the ocean bottom	Fijos al fondo marino
Tentacles / Tube feet	Flexible arms or tiny feet for moving	Tentáculos / Pies ambulacrales
Soft bodies / Flat	Flexible, non-hard, or thin body shapes	Cuerpos blandos / Planos
Exoskeleton	Hard outer shell of arthropods	Exoesqueleto
Six / Eight / Ten legs	Leg count for insects, spiders, and crabs	6 / 8 / 10 patas
Crawl / Lots of legs	Moving close to ground / Myriapods	Arrastrarse / Muchas patas
